BUMP Dual Roller

The **D**ynamic **S**pring **S**ystem is an exclusive patented spring cushioning system inside the Mobilis® luggage.

The Bump Dual Roller is a 3 in 1 concept bag specially designed for the most mobile user. Not only is it both a backpack and a briefcase but it can also be used in trolley mode thanks to the attachable module. Moreover the Dual Roller benefits from a patented shock absorber system: the Dynamic Spring System (DSS). All of the daily minor shocks and impacts are absorbed by the DSS, protecting the PC inside.
